PROFESSIONAL SUMMARY

Computer Science undergraduate at VIT Chennai, specializing in Artificial Intelligence and Machine Learning (AIML), with hands-on experience in full-stack web development, SaaS applications, and AI-powered solutions. Proficient in building modern, responsive web applications using JavaScript, TypeScript, React, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, with backend and database management via MongoDB and Firebase. Experienced in Razorpay API integration, LLM integration, and developing AI and computer vision applications using Python, OpenCV, and Tkinter. Maintains a strong GitHub portfolio demonstrating real-world projects, scalable applications, and practical problem-solving. Actively seeking a Full-Stack Developer internship to contribute to innovative software products.

SKILLS

JavaScript, TypeScript, Python, C++, React, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, MongoDB, Firebase, Razorpay API, LLM Integration, OpenCV, Tkinter, Three.js, SaaS Applications

EXPERIENCE

Full-Stack Developer | Project Experience (Internship Seeking)

Self-Directed Projects | GitHub Portfolio

Developed multiple full-stack and SaaS-based web applications using React, Next.js, Node.js, Express.js, MongoDB, and Firebase, covering authentication, APIs, and scalable application architecture. Implemented AI features and LLM integrations, secure Razorpay payment gateway integration, and modern UI using Tailwind CSS. All projects are documented and maintained on GitHub, demonstrating hands-on experience, clean code practices, and readiness for a Full-Stack Developer internship.

PROJECTS

Portfolio Website

Showcases my personal projects, skills, and portfolio in a clean, interactive layout.

<https://iampranjal.vercel.app>

AI Voice Interviewer (SaaS Application)

A voice-based interview platform built with Next.js, integrating VAPI Voice Agent, Gemini API, and Three.js for immersive interactions.

WHYAIRESUME_CRAFT

Tool to craft optimized resumes for better career opportunities. Made on tkinter, reportlab, python

https://github.com/illuzzzio/WHYAIRESUME_CRAFT

Encrypted File Storage System (Computer Network Final Project)

User and admin file sharing platform with custom cipher algorithm for encryption/decryption implemented in TypeScript.

https://github.com/illuzzzio/Computer_Network_Final_Project

Molecular Solubility Prediction (Machine Learning)

Predicts molecular solubility (logS) using machine learning models trained on chemical datasets.

https://github.com/illuzzzio/log_Solubility_logS_Prediction

GitHub (All Projects & Source Code)

Central repository for all my projects and source code.

<https://github.com/illuzzzio>

EDUCATION

Vellore Institute of Technology (VIT), Chennai

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Specialization: Artificial Intelligence and Machine Learning (AIML)
